Reporting

Odoo 19 Enterprise · Purchase

Purchase reporting tracks spending, vendor performance, and procurement efficiency.

1 Purchase Analysis

[Purchase](#) > [Reporting](#) > [Purchase Analysis](#)

Purchase Analysis shows all purchase order lines with measures: quantity ordered, quantity billed, amount total, and average cost. Group by vendor, product, category, purchase representative, or date. Use the pivot view to compare vendor pricing across periods. Export for budget reporting.

2 Incoming products report

[Purchase](#) > [Reporting](#) > [Incoming Products](#)

Shows all expected receipts with their scheduled dates and quantities. Use this to plan warehouse capacity and track vendor delivery performance against promised dates.
